

Psyche Cookie Cutters

I. Print & Cut

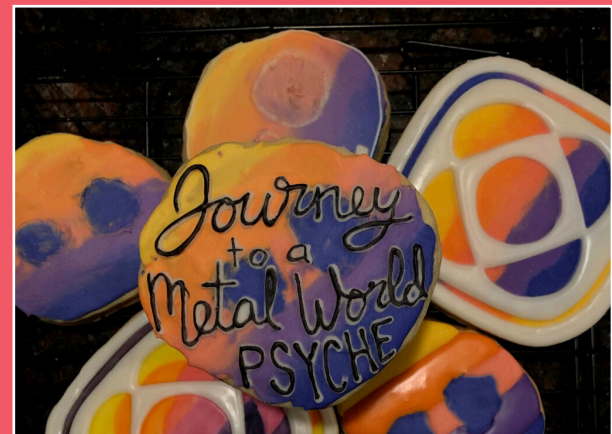

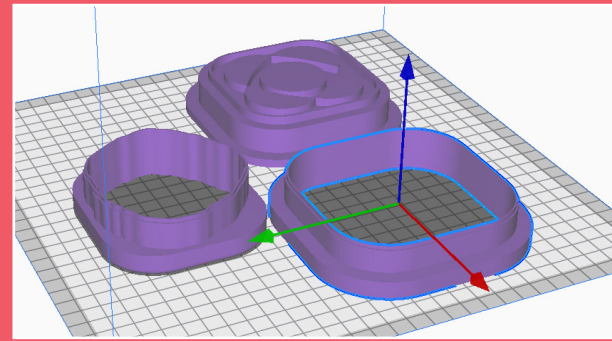

- Download the included templates or 3D models of the Psyche logo and asteroid.
- Don't have a 3D printer? - Check with your local school or library or search online for a printing provider near you.
- Prefer a low-tech alternative? - Trace our templates onto wax paper and cut them out with scissors.

II. Bake & Decorate

- Use your favorite cookie recipe, or take inspiration from our Psyche Inspired projects!
- Stamp out your cookies with your cookie cutters, or lay your wax paper templates on your cookie sheet and cut around them with a knife.
- Decorate with icing in the colors of the Psyche mission (gold, magenta, purple) for an extra sweet taste of space!

III. Enjoy & Share!

- Devour by yourself or with your friends at your next backyard space party.
- We'd love to see what you make! - Share your creations with us on social media by using *#PsycheSpaceCrafty*.
